ABOUT THE CONFERENCE

The International Conference on Libraries and Emerging Technologies for Smart Knowledge Ecosystems (ICLET 2025) explores the profound impact of new technologies on the information landscape. These advancements are reshaping the way information is developed, processed, preserved, and disseminated, often replacing old methods and transforming entire ecosystems. As vital institutions in society, libraries—whether public, academic, or special—are also adapting to these technological shifts.

To effectively serve rapidly evolving societies and meet the dynamic needs of users, libraries must undergo significant reengineering. However, embracing these changes requires substantial investment in time, human resources, & finances. Yet, even as libraries adapt to one technological breakthrough, another disruptive innovation emerges, continually altering the global information landscape.

In light of these ongoing changes, ICLET 2025 provides a platform for experts, practitioners, and educators to engage in meaningful discussions about the future of libraries. This conference invites all who are passionate about technology and its transformative potential to join the conversation—whether you're involved in technology development, implementation, or training future professionals. Together, we can shape the future of libraries and information systems in this rapidly changing digital age.

Vision

To create a knowledge-based society with scientific temper, team spirit and dignity of labour to face the global competitive challenges.

Mission

To evolve and develop skill-based systems for effective delivery of knowledge so as to equip young professionals with dedication & commitment to excellence in all spheres of life.

ABOUT POORNIMA COLLEGE OF ENGINEERING

Poornima College of Engineering, the pioneer institute of Poornima Group, was established in 2000 to impart pragmatic technical education. In its magnificent journey of 25 years, PCE has set benchmarks and reached new pinnacles in engineering education with dedication, perseverance, and devotion with student strength of approx. 2,500 studying ten specializations of engineering (CSE, CSE (AI), AI & DS, CSE (Cyber Security), CSE (Regional Language), ECE, EE, ME, Civil & IT). With more than 3.5 Lakh square feet of built-up area, highly qualified faculties, state-of-the-art infrastructure, good placements, and an industry-led curriculum, PCE is marching ahead of others with tremendous growth since its inception. PCE is spearheading its outstanding voyage with the motto 'Success is not a destination, it's a journey'. Poornima College of Engineering, Jaipur has been ranked 2nd under the QIV Ranking of Rajasthan Technical University, Kota since 2017. The QIV Ranking is based primarily on Academics, University results, Placements, and alumni. PCE has implemented Outcome Based Education systems and processes to strategically monitor the progress of every individual student right from admission to exit. There are beyond curriculum contents and activities planned yearly to bridge the gap between industry and academia. This has been demonstrated through continuous enhancement in placement number and package. PCE has been accredited by The National Assessment and Accreditation Council (NAAC) with an esteemed A+ Grade, validating the commitment to quality education for the next five years, and Autonomous status by UGC for the next 10 years. The institute has recently received a diamond rating from the QSI-gauge.

About RTLA: Established in 2010, with its headquarters at Jaipur and registered under the Rajasthan Non-Trading Company Act, 1960. The Main objective of RTLA is to provide a common platform to library professionals to exchange latest updates, share new knowledge, improve the quality of Library and Information Centers and strengthen the welfare of Library Professionals. The RTLA is dedicated to the holistic development of the library profession and therefore very often various events like seminars, thought-provoking discussions, and brainstorming sessions for insights to conceptualize innovative research proposals have been usual activities under the banner of association. The association also frequently strives to organize invited lectures, and workshops for professionals and students on contemporary advancements of library sciences.

ABOUT DEPARTMENT OF LIBRARY AND INFORMATION SCIENCE, UNIVERSITY OF RAJASTHAN

The University of Rajasthan is a premier institution of higher education in Rajasthan, established as "Rajputana University" on 8th January 1947. Having earned several laurels including University with Potential for Excellence and credited with 'A+' grade by the NAAC in 2025, the University has a rich history of academic brilliance, nurtured over the years by the Professors of international repute. The Department of Library and Information Science came into existence in 1960 on the recommendations of UGC Library Committee (1959) in the University of Rajasthan, Jaipur. Padma Shri Dr. Syed Bashiruddin was the first teacher in the department. Notable alumni of the department have worked in different prestigious institutions on various positions. Some of the alumni of the department are Dr. Jagdish Arora (Former Director, INFLIBNET), Dr. R. K. Chadda (Former Addl. Secretary, Parliament Library), Dr. Daulat Jotwani (Former Librarian, IIT Mumbai), and many more. The department offers BLIS, MLIS and Ph.D. courses.

Call for Paper Presentation: Original contributions based on practice, theoretical and empirical research, case studies, etc. are invited on the domain and sub-domains of the conference as mentioned above. All papers will go through a process of blind review by a panel of experts and accepted papers will be published in the conference volume (with ISBN). Correspondence regarding papers should be addressed to the Organizing Secretary through email iclet@poornima.edu.in. Correspondence will be made with the principal author and therefore, the name, full address, email, and all (work, home, mobile) phone numbers of the principal author should be indicated. Authors are requested to submit a brief CV (only one paragraph) and colour photograph with the paper. The last date of submission is 30th September 2025.

Who Should Participate:

All Educationalists, Academicians, Researchers, Students, and Distance Learners, Library Professionals, working in various subject domains mentioned in the introduction of the conference.

CONFERENCE TRACKS

Prospective authors from academia and industries are invited to submit their full-length papers in ICLET-2025 that have not yet been submitted/published. The article should illustrate the research, surveying works, and industrial applications in the field of Libraries and Emerging Technologies for Smart Knowledge Ecosystems

Track 1: AI and Machine Learning in Library Services

- Intelligent discovery systems
- AI-driven reference and recommendation services
- Predictive analytics for user behaviour & resource management
- Ethical implications of AI in libraries
- Digital and AI literacy programs
- Privacy, surveillance, and algorithmic accountability
- Role of IoT and Cloud Computing in Library Innovation
- Big Data and Analytics in Knowledge Management

Track 3: Digital Transformation and Library Innovation

- Library automation and workflow optimization
- Digital library architecture and cloud-based services
- Emerging digital tools for curation and preservation
- Knowledge sharing practices in the digital age
- Organizational learning through data and analytics
- Digital knowledge repositories and metadata management
- Libraries as Smart Learning Hubs: Integration with MOOCs and e-Learning
- Cross-Platform and Multilingual Digital Services

Track 5: Future of Public Libraries

- Maker spaces & Creative Labs in Public Libraries
- Community-Driven Innovation Models
- Design Thinking & UX in Public Library Development

Track 2: Smart Libraries and Knowledge Ecosystems

- Smart infrastructure and sensor technologies
- Interoperability in smart environments
- Internet of Things (IoT) applications in libraries
- Green technologies and sustainable practices
- Bridging digital divides in smart ecosystems
- Libraries' role in achieving SDGs through technology
- Digital Twins and Simulation Technologies in Libraries
- Edge Computing and Real-Time Library Services

Track 4: Policy, Leadership, & Strategic Planning for Smart Libraries

- National and institutional policies on emerging technologies
- Strategic foresight and scenario planning
- Human-computer interaction in library systems
- Libraries as data service providers
- Open data, FAIR principles, and research data management
- Community-driven digital archives
- Crowdsourcing and participatory knowledge creation

- AI & Smart Technologies in Public Library Services
- Innovative Partnerships for Impact
